

The Vibes – The World Is Yours

Recently, it was surprisingly quiet around the loudest rock'n'roll band from Aarau, Switzerland: The Vibes.

Solo projects, thirsty runs, drummer changes, break-up rumors, all about reorientation after 16 years?

No way!

While slaps in the face, differences and odysseys scratched the surface, Mojo and Mat teamed up with their new band mate Hell Hede (Zamarro, Dogs Bollocks, Hellmute) and sweltered, roared and worked on new songs in the underground.

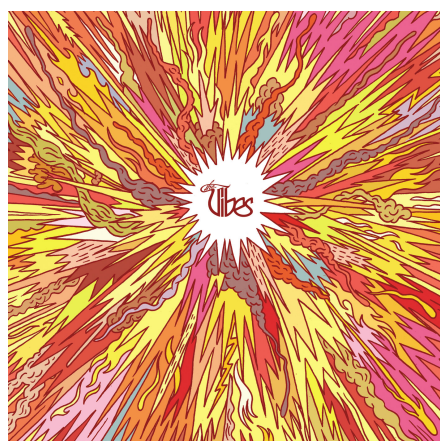

Days passed by until the new old sound was rediscovered, the inspiration for new rock'n'roll anthems flashed and the vibrations felt just right again. During this process, the probably up-to-now most authentic album of The Vibes could mature and age. The album was produced together with Reto Peter (Green Day, Counting Crows, Flipsyde) and recorded in the Soma studios in Zofingen, Switzerland. Reto Peter knew how to put the essence of the band on tape - no frills, no rubbish - just The Vibes. The album was mastered by Mika Jussila at Finnvox Studios, Helsinki.

This fall (2019), The Vibes proudly present their fifth studio album "The World Is Yours". Off the rehearsal cave straight back on the road to celebrate the TCB Rock'n'Roll with even more power and attitude on the stages of the world.

Choruses to growl along, goosebumps, rye whiskey throats, guitar walls, bragging mud bass sound, displosive drums, yelling lead sounds and creep show organs.

The World Is Yours! Time to live it as you want it to be!
